## **SHEARWATER GROUP PLC**

### **Shearwater portfolio companies awarded place on G-Cloud 11**

Shearwater Group plc (AIM: SWG, "Shearwater"), the organisational resilience group, announces that four of its portfolio companies (Geolang, Brookcourt Solutions, Pentest and Xcina) have been awarded a place on the G-Cloud 11 framework.

The G-Cloud 11 framework is an agreement between the UK Government and its cloud-based services suppliers. Buying services through this framework is faster and cheaper than entering into individual procurement contracts.

Shearwater collectively has 17 services across both the cloud software and cloud support categories of the latest framework on the Government's Digital Marketplace.

**Phil Higgins**, CEO of Shearwater, commented:

***"To have secured so many of our services under one framework agreement is a clear demonstration of our premier capabilities and expertise.***

***"To provide a wide range of complementary services as a collective group through the G-Cloud framework will further enhance our growth as we gain better access to public sector organisations."***
